Art Unit: 2622

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/29/09 has been entered.

Page 2

2. Applicant's arguments filed on 4/29/09 are persuasive; therefore, the rejections under 35 U.S.C. §103 have been withdrawn. However, Applicant's arguments of Obviousness double patenting rejections are not persuasive.

With regard to claims 18, claim 18 is obvious variant and encompassed by claims 36-38 and claims 43-45 of patent'954 because claimed "past transfer history data" is met by "data attached to the image file indicating whether or not the image file stored is said memory previously transferred from the memory to different storing area" cited in claims 36-38 or claims 43-45 of Patent'954.

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or

Art Unit: 2622

improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., In re Berg, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); In re Goodman, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); In re Longi, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); In re Van Ornum, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); In re Vogel, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and In re Thorington, 418 F.2d 528, 163 USPO 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 18-30 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 27-29 and 36-48 of U.S. Patent No. 6,630,954. Although the conflicting claims are not identical, they are not patentably distinct from each other because:

Claims 18-20 are obvious variants and encompassed by claims 36-38 and 43-45 of Patent'954.

Claims 24-26 are obvious variants and encompassed by claims 36-38 and 43-45 of Patent'954.

Art Unit: 2622

Claims 21-23 are obvious variants and encompassed by claims 27-29, 40-42 and 46-48 of Patent'954.

Claims 28-30 are obvious variants and encompassed by claims 27-29, 40-42 and 46-48 of Patent'954.

- 4. Claim 31 is allowed.
- 5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan Ho whose telephone number is (571) 272-7365. The examiner can normally be reached on Mon-Fri 7:00AM-4:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sinh Tran can be reached on (571) 272-7564. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
